BOOK SYNOPSIS

Richard Hauser Irene Becker Johann Wolfgang Goethe-University, Frankfurt/Main
This volume marks the end of a research project of the editors titled "The Development of the Personal Distribution of Income in Germany" that was financed by the Hans Bockler Foundation from 1994 to 2001. This research concentrated on a national perspective, studying many aspects of income inequality and poverty in West Germany between 1969 and 1998 and extending the analyses to inequality in East Germany after the German reunification. Now at the end point of our empirical analyses, we want to expand the perspective to other research in this field, to challenges for future research, and to the European dimension, rather than to summarise all our results, which is done in another book. In 2001, the German government published its first Poverty and Wealth Report, which also draws on results from our research project. Thus, the intention of this volume is threefold: presenting and advancing German reporting on poverty in other countries and wealth, examining experience with advanced reporting schemes, and discussing comparative concepts for social monitoring in the European Union.

REPORTING ON INCOME DISTRIBUTION AND POVERTY PERSPECTIVES FROM A GERMAN AND A EUROPEAN POINT OF VIEW - Are you looking for Ebook Reporting On Income Distribution And Poverty Perspectives From A German And A European Point Of View?
